

NZ BSB TEST DATASET

Installing Charts

Depending on your software, the location and how charts are stored on your system may vary. Please consult your software provider and documentation for the specific chart install requirements for your software.

Maptech Chart Navigator

1. Download the Base Disk zip file from our website to a suitable location.
2. Right click on the zip file you have downloaded and choose 'Extract to here'.
3. Once extracted, you should see a folder called BSB_NZTDS.
4. Open the BSB_NZTDS folder. You should see a number of folders which correspond to chart numbers.
5. Double click on one of the chart folders. The folder should contain a **.BSB** file and at least one **.KAP** file.
6. Select all of the **.BSB** and **.KAP** files, click the **Edit** menu and choose **Cut**.
7. Browse to the **C** drive, open the **Chartkit** folder, and then open the **BSBChart** folder.
8. Click the **Edit** menu and choose **Paste**. This will place the **.BSB** and **.KAP** files that were **Cut** into this folder. This folder is the default location where Chart Navigator looks for charts.
9. If you have more than one chart you wish to load into the software, open the BSB_NZTDS folder again and repeat steps 5 to 8 above.
10. To view the charts, start the Maptech software. Select the **File** menu, then **Open Chart**.

Fugawi Marine

1. Download the Base Disk zip file from our website to a suitable location.
2. Right click on the zip file you have downloaded and choose 'Extract to here'.
3. Once extracted, you should see a folder called BSB_NZTDS.
4. Open the BSB_NZTDS folder. You should see a number of folders which correspond to chart numbers.
5. Start Fugawi Marine. Select the **Maps** menu, then **Install Maps And Data...** An **Install Maps and Data** dialogue and **Select Map Formats** tab will appear.
6. Select the **Maptech / NDI / NV / Other BSB** option, then **Next**.
7. A **Places / Elevation** tab will appear. Select **Next**.
8. A **Select Drives / Folder** tab will appear. Select the **Folder** option and browse to the BSB_NZTDS folder in step 4 above. Select **Next**.
9. A **Search Progress** tab will appear. Select the **Start Search** button.
10. A list of all the BSB charts present in the BSB_NZTDS folder will appear. Tick the charts you wish to install. Select **Next**.
11. An **Install Maps** tab will appear listing the BSB charts which have been installed. Select **Finish**.
12. To view the charts, select the **File** menu, then **Open Map**.

Chart Raster Viewing Software
